

## Sensible Micro has partnered with the following **Authorized Lines & Direct Lines:**

Offering a wide range of world-class connectors and cable assemblies. Innovative connector designs and manufacturing capabilities that reduce cost and improve performance in a broad range of applications.

High-quality cabling and connectivity solutions including, USB, HDMI, DVI, Power Cords and more at the most competitive prices. Custom lengths and configurations are available based on volumes.

A leading manufacturer of frequency products, quartz crystals, oscillators, and ceramic resonators. Great for long life cycle applications, they will support for 20 years!

A leading European manufacturer of electro-mechanical components for more than 100 years, including connector systems, crimp contacts, solderless terminals, stamping parts and termination technology

A leading manufacturer of power products for more than 50 years offering a full line of DC/DC converters and AC/DC power supplies with an emphasis on customized solutions made in the US.

Custom and standard battery solutions for a broad range of products and applications, in both rechargeable and non-rechargeable chemistries. For 50 years, producing discrete semiconductors has been their passion.

For 50 years, producing discrete semiconductors has been their passion. Standard and customized, with high availability and fast worldwide delivery.

Standard and customized, with high availability and fast worldwide delivery. Etron Tech is the pioneer and leader of KGDM (Known Good Dice Memories) – the bare-die memory. KGDM bare die products can be mass-produced without packaging and enable Stacked-Die System-Chip in one package.

Founded in 1998, CJT Connectors is a premier provider of electronic connector solutions, dedicated to localizing imported connectors. CJT Connectors boasts a comprehensive range of products and services tailored to meet the diverse needs of its global clientele.

Incorporated in 2000, TAEJIN had the aim of becoming the world leader in Power Management IC industry. The brand name "HTC Korea" was created by TAEJIN Technology to meet customer's goal by using highly diversified R&D technology.

The supply chain partner  
you can count on.

## Sensible Micro has access to the following **Independent Lines:**
